

The Application and Exploration of Artificial Intelligence in Educational Reform

Organizers:

Prof. Feng DUAN, College of Artificial Intelligence, Nankai University, China, duanf@nankai.edu.cn

Associate Prof. Jin ZHANG, College of Cyber Science, College of Computer Science, Nankai University, China, nkzhangjin@nankai.edu.cn

With the development of artificial intelligence, the education reform and teaching methods have become a key problem restricting the development of related disciplines. The purpose of this session is to show and share the new ideas and achievements of AI application in education and teaching together with relevant scholars. The topics of papers include, but are not limited to: computer education theory, teaching methods and means, education reform and practical teaching reform. We hope that people around world will contribute to this session!

人工智能在教学改革中的应用探索

组织者:

段峰, 教授, 南开大学人工智能学院, duanf@nankai.edu.cn

张金, 副教授, 南开大学网络空间安全学院、计算机学院, nkzhangjin@nankai.edu.cn

随着人工智能时代的到来, 教育教学方法的改革已经成为制约相关学科发展的关键问题。本专题旨在与相关学者一道, 共同展示和分享人工智能在教育教学中应用的新思路和新成果。本专题论文主题包含但不限于: 计算机教育理论、教学方法和手段、教育改革和实践教学改革。望广大学者针对这次会议探讨的主题踊跃投稿!
